Test Name	Test Results	Comments
Listeria	Negative	No secondary testing required.

**Secondary Tests:**

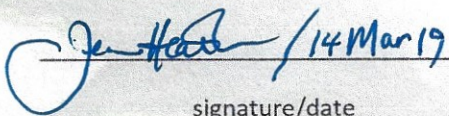

Test Name	Test Status	Test Results
E. Coli Confirmation	Not Required	N/A
Salmonella Confirmation	Not Required	N/A
Listeria Confirmation	Not Required	N/A

\*Avazyme cannot warrant the absolute negative presence of any pathogen, only attest that the test was carried out via appropriate methods and shows a negative result.

Testing was performed according to established AOAC, BAM, and API methods. Using these methods, this sample tested negative for:

- *Listeria monocytogenes*
- *Salmonella enterica*
- *E. coli* O157:H7
- *Staphylococcus aureus*
